

*Building for Life.*

June 7, 2011

Heather,

Knight Transfers' commitment to service was extremely evident to us as we worked on the new Request Foods plant. They were always quick to respond when we called on one of our 4 dumpsters, and stopped by often to ensure that they were providing everything we needed. We greatly appreciated their help as they worked with us on cost saving and earth friendly options; including staging cardboard and concrete dumpsters inside the building during the construction process and helping to reduce the amount of material that was brought to the landfills.

Thanks again for all your help not only on our standard dumpster pickups, but also the few that we called and asked for on short notice. We really enjoy working with you and greatly appreciate your service.

Thanks again

Dan Vos Construction Co.
