Mr. Mark Dubois  
Knight Transfer Services  
3251 88<sup>th</sup> Avenue  
Zeeland, MI 49464

Mark,

I just wanted to take a minute and thank you and your team for the excellent job you did for us at the Gompers and Clark Park School projects here in Detroit. From the top down your organization has been a pleasure to work with. Your drivers are very tolerant, patient, and work well with our superintendents. These are extremely tight sites and most dumpster exchanges required tricky maneuvering and multiple moves. The schedulers are always very accommodating and even call ahead before a long weekend to see if we will need extra dumpsters. This has been great since most of the time the dumpsters are the last thing on the superintendent's mind. We were very happy to hear you would accommodate us and honor your pricing even for these projects that are so far from your headquarters. The LEED tracking spreadsheets you compile make my life much easier and helped us to achieve the certification we set out to obtain. Overall we continue to be impressed with the service Knight provides and we look forward to working with you on all of our projects for years to come.

Sincerely,

*Joe Luther*  
Project Manager
